PROFILE SUMMARY

Motivated and dedicated undergraduate student pursuing a degree in Information and Communication Technology with a strong interest in Software Engineering and Full-Stack Development. Experienced in object-oriented programming, database management, and web application development using modern technologies. Familiar with Git and GitHub for version control, with a passion for learning new technologies and applying technical skills to develop efficient software solutions.

EDUCATION

Bachelor of Information and Communication Technology (Honours) 2023 – Present | Department of ICT, Faculty of Technology

University of Vavuniya

Higher National Diploma in English 2022 – 2025 | Advanced Technological Institute-Kandy

Sri Lanka Institute of Advanced Technological Education

TECHNICAL SKILLS

Programming Languages: C, C#, C++, Java, SQL ,JavaScript

Frontend Development: React, HTML5/CSS3,

Backend Development: Node.js , .NET Core

Databases: MySQL

Development Tools and Version Control: Visual Studio Code (VS Code), XAMPP, Git, GitHub, Postman, Jira

Design & Prototyping Tools: Figma, Balsamiq, Canva

Engineering Tools: AutoCAD, Keil µVision

Business & Productivity Tools: Microsoft Word, Microsoft Excel, TallyPrime

PROJECTS

SoftSkills Tutor: AI-Assisted Soft Skills Learning and Assessment Platform 2025

- SoftSkills Tutor provides a secure and interactive learning environment where users can register, log in, and manage their accounts through authentication features. The platform allows students to access and search learning resources, download study materials, and engage with soft skills development activities. It also provides AI-assisted feedback, secure cloud storage for user content, and a personalized dashboard to enhance the overall learning experience through a clean, responsive, and user-friendly interface.
- Individual contribution
- Developed using React.js, JavaScript, HTML, CSS, Supabase, SQL Server, AssemblyAI, and Google Gemini API.

Faculty Staff Management System 2025

- A centralized web portal designed to replace manual paperwork by digitizing administrative workflows. The platform provides secure administrator authentication, full profile lifecycle management (CRUD operations) to record employee details, dynamic tracking for daily staff attendance logs, and an interactive directory with instant search and filtering capabilities by ID or Name.
- Collaborated as a full-stack developer in a group environment to design and implement the relational database, server-side backend logic, and frontend user interfaces.
- Developed using HTML5, CSS3, JavaScript, PHP, MySQL, and XAMPP/WAMP local server environment.

LANGUAGE PROFICIENCIES

English

Full Professional
Proficiency (Reading,
Writing, Speaking)

Sinhala

Native Proficiency
